

MESSAGE CENTRE – MANAGING PROXIES

1	Launch Powerchart.
2	Click Message Centre on the toolbar 
2	Click on the Proxies Tab. 
3	Click on Manage the button to open the 'Proxies Setup' window. This shows all proxies given by and taken from you 
4	To give a new proxy to another user click the button at the bottom left of the screen. 
5	In the 'New Given Proxy' pane enter the name of the user you wish to proxy to your messages/documents and click on the binoculars to search 
6	Click on OK
7	Enter the 'Begin Date and Time' and 'End Date and Time' of the period for which you are allowing them access.
8	From the 'Available Items' pane click to select which messages/documents you wish them to have access to. 

9	<p>If you wish the user to have access to everything you don't need to highlight them separately, just click  and all will be moved to the 'Granted Items' pane. If you wish to select particular items, click to select the items and click  and only the selected items will move over to the 'Granted Items' pane.</p> <p style="text-align: center;">Granted Items</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: auto;">Messages Documents</div>
10	<p>To revoke the proxy before the end of the original time period given, either click  to remove ALL of the items or click to select the individual item(s) and click  to remove them.</p>
11	<p>Click  to close and finish.</p>
