

## SETTING UP THE RAPID RESPONSE DASHBOARD

1.	<p>Click on the Rapid Response Dashboard icon from your tool bar.</p> 
2.	<p>Filters window opens.</p> 
3.	<p>Click on the drop down for Select or Create a Saved list and free text your custom list name.</p> 
4.	<p>We are filtering by 'Patient List' (custom). Click on patient list.</p> 
5.	<p>Select the radio button for the list you wish to pull into the dashboard.</p> 
6.	<p>Click the button to set this list as default if required.</p> 
7.	<p>Click the 'Save List' tab.</p> 
8.	<p>Click 'Set Filters'.</p>  <p>Window closes and dashboard opens. NB - some patients may not be seen until obs/vital are completed since adding to the lists. So they may filter in after an hour or two.</p>

9.	<p>Data pulls into current list.</p> <p style="text-align: center;"><b>Current List: RRT</b></p>																									
10.	<p style="text-align: center;"><b><u>Discription of icons:</u></b></p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td data-bbox="181 383 831 465" style="text-align: center;"></td> <td data-bbox="831 383 1476 465">Filter window.</td> </tr> <tr> <td data-bbox="181 465 831 539" style="text-align: center;"></td> <td data-bbox="831 465 1476 539">Add a patient.</td> </tr> <tr> <td data-bbox="181 539 831 667" style="text-align: center;"></td> <td data-bbox="831 539 1476 667">First column 'Scores &amp; Seveirity', EWS Pie chart – green/amber/red. Click on the segment or any information on the dashboard, select the drop down to the 'dashboard' and change to worklist.</td> </tr> <tr> <td data-bbox="181 667 831 730" style="text-align: center;"></td> <td data-bbox="831 667 1476 730">The patients associated with the information are listed.
