

## RESULT COPY

1.

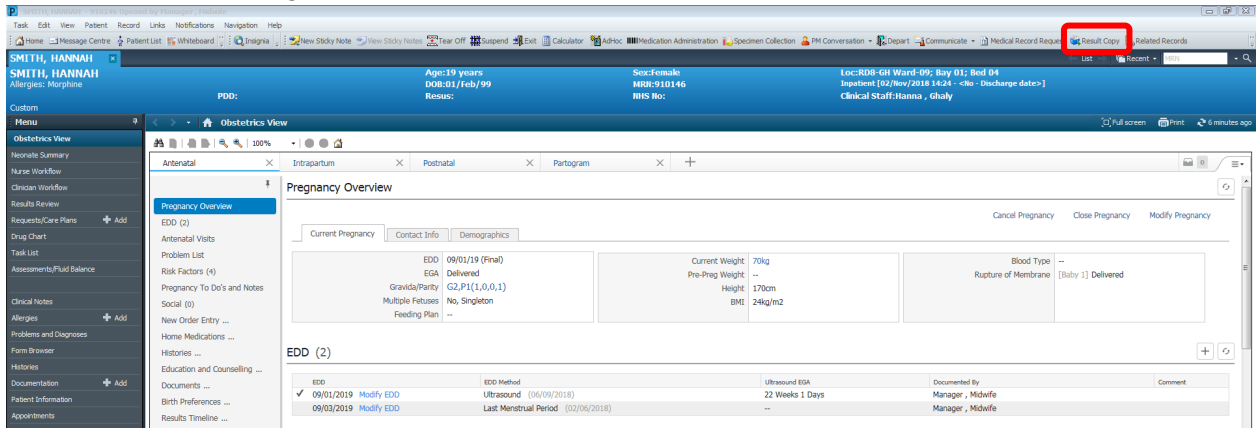

This guide will show you how to copy results over from the Mother's to the Baby's record.

*Please note – to do this you must have first created the Newborn. Hence the first screenshot picks up from the last step of the Adding a Newborn guide.*

2.

Ensure you are open to the Obstetrics View following the creation of the Newborn the below.

Click on the Result Copy tab which is located on the toolbar.

3.

The Result Copy Wizard will display. Check the details of the baby are correct and then click on next in the bottom right hand corner.

**Result Copy Wizard**

Copy Data From  
Name: SMITH, HANNAH  
MRN: 910146  
FIN: 4243126

(M) Birth Weight:			3,500 g		
(M) Delivery Outcome:			Live birth		
(M) Gender:			Male		
(M) Method of Delivery:			Spontaneous Vertex		

6.

The Result Copy Wizard will close. To find where this information has gone, click on the Related Records icon from the toolbar at the top of the screen to navigate to the baby's record (if you are unsure of this process, use reference guide 219).

7.

Click on Assessments/Fluid Balance from the main left hand menu and select the Result Copy band. Then click on Result Copy from Mother. To the right you will then see a break down of the details copied over from the Mother's record. This will remain in the Baby's notes.
