

ED – ADULT TRIAGE & ASSESSMENT

1. Ensure that you are on Launchpoint (Landing page of the FirstNet application).
2. Click on the numbered (activities) box at the end of your patients row, select the ED Adult Triage and Assessment and click Document.
3. Complete the form using the appropriate selections.

****NOTE**** as you select some options, this may open another window (conditional logic) to pop up and ask for further information (e.g. selecting Airway/breathing as Presenting Complaint will open up another window). If this happens, once you have completed the details in this form, click on the curly back arrow to return to the main form

All yellow fields are Mandatory.
